

Press Statement by Attorney Matt Pawa, who represented Ken Ward and Jay O'Hara

September 8, 2014

We were prepared today to prove that Global Warming is the greatest threat facing humanity and that Kenneth Ward and Jonathan O'Hara were legally justified in blocking the Energy Enterprise from delivering 40,000 tons of coal to the Brayton Point Power Plant because they needed to take brave action against the use of coal, which is destroying our planet.

Kenneth Ward and Jonathan O'Hara appreciate the Commonwealth's decision to dismiss all criminal charges.

Kenneth Ward and Jonathan O'Hara stood up for what is right. And now DA Sutter has also stood up for what is right.
